Mason Copeland (Team Leader - Math Wizard - Student Extraordinaire) Mason is a success on many levels. He wakes up and suits up for school nearly everyday despite his personal struggles. You see to me he is the definition of the word perseverance. Mason, shows up where most people just wouldn't or couldn't. And he is not just a seat filler; he is a leader and a teacher to students around him. He helps us stay on task. He truly is a success story and I am honored to have the opportunity to help nurture his leadership skills in our 3rd period math class. He inspires me Daily!
